FOR IMMEDIATE RELEASE

**Pediatric Home Service's Sarah Brundidge named
Wisconsin Society for Respiratory Care's President-Elect**

St. Paul, Minn. – [Pediatric Home Service](#) (PHS) is excited to announce that Sarah Brundidge, MSc, RRT, AE-C, RPF1, has recently been appointed president-elect for the [Wisconsin Society for Respiratory Care \(WSRC\)](#). Sarah is a respiratory therapist and clinical educator at the PHS Milwaukee office.

WSRC is a professional state society for respiratory therapists, as part of the [American Association for Respiratory Care \(AARC\)](#) national organization. The organization offers educational and professional development events that provide respiratory therapists continuing education they need to maintain their license to practice. The group also advocates for legislation important to patients and the professional interests of respiratory therapists.

“Sarah is a fantastic choice for president-elect of the Wisconsin Society for Respiratory Care,” said Ron Pasewald, current president of WSRC. “She exemplifies the professionalism and dedication to patients that all of us should strive for.”

Pasewald added that Sarah has been on the front line advocating for patients and the respiratory profession as the legislative chair. He noted that her leadership and experience will be invaluable to the Wisconsin state society.

Brundidge says she is eager to lead this organization.

“Over the last couple of years we have faced potential de-licensure issues and have been able to get more respiratory therapists involved and engaged with WSRC. I am excited about where we are going as a state and as a professional organization.”

Brundidge added that she plans to raise awareness of the respiratory therapy profession and the impact they make as part of a patient's health care team during her time as president.

Brundidge will serve a four year term.

About Pediatric Home Service

Based in St. Paul, Minn., with an office location in Pewaukee, Wisc., Pediatric Home Service is an independent pediatric home care company that helps children with medical complexities and technology dependencies live safely and successfully where they're most comfortable, at home with their families, rather than in a hospital. Pediatric Home Service has been partnering with health care professionals and family caregivers for nearly three decades to deliver compassionate, specialized, high-quality care to children with special medical needs.
