Dear {First Name},

Alliance Medical Supply specializes in providing in-home pediatric enteral nutrition and respiratory care. Now, we have the opportunity to strengthen our services by joining the Pediatric Home Service (PHS) family of companies. PHS is a pioneer in helping kids with medical complexities achieve their best lives at home.

This partnership does not change the services we currently provide you. Your primary clinician, your equipment and supplies, and the billing and ordering processes remain the same.

Alliance Medical Supply remains committed to providing the highest quality clinical care and customer service for our patients. We are looking ahead to an exciting future as Alliance Medical Supply joins the PHS family. We plan to increase the range of our best-in-class services to support children with medical complexities at home.

You can get to know our new partner at [PediatricHomeService.com](http://PediatricHomeService.com). The website has many resources to support you as you care for your child at home. These include home care tips and how-to videos, a kids' activities blog, support resources for parents, and much more.

We are sharing this information with you, first. Alliance Medical Supply plans to announce our partnership more broadly in September. We will be changing our name to Pediatric Home Service at the start of the new year.

Please don't hesitate to reach out with any questions by calling 210-737-2444.

Sincerely,

Howk Bethel  
General Manager  
Alliance Medical Supply, a PHS company
