Dear {First Name},

Alliance Medical Supply has always been focused on providing specialized in-home pediatric enteral nutrition and respiratory care. Now, we have the opportunity to strengthen our services by joining the Pediatric Home Service (PHS) family. PHS is a pioneer in helping kids with medical complexities achieve their best lives at home.

Our clinical team will not change as a result of this new partnership. We will maintain the responsiveness and accessibility that you know and love. Everyone at Alliance Medical Supply and PHS is as committed as ever to providing the highest quality clinical care and customer service for our patients.

We are looking ahead to an exciting future where Alliance Medical Supply's service offerings include even more comprehensive, best-in-class services to support children with medical complexities at home. We will also be able to introduce new technology resources to save you time and paperwork.

You can get to know our new partner at PediatricHomeService.com, where you will find patient stories, services, and more information on the approach to helping kids live at home. It was important that we shared this information with you first, but please watch for news on our partnership as we will be communicating more broadly in late September. Over the next several months, we'll be transitioning to a unified brand under the Pediatric Home Service name.

Please don't hesitate to reach out with any questions by calling me directly at 830-221-7970.

Sincerely,

A handwritten signature in black ink, appearing to read "Howk Bethel".
