Pediatric Home Service Named for the Second Year on the Inc. 5000 Fastest Growing Companies List

August 21, 2023 (Roseville, Minn.) – Pediatric Home Service (PHS), the country’s leading independent provider of comprehensive home care, supporting children with medical complexities, announced it has been named to the annual [Inc. 5000 list](#) of fastest-growing companies in America for the second year in a row.

"PHS was founded on the principles that children deserve the best care, and they deserve to be a kid at home with their families. The team has worked diligently to deliver our mission and bring our care to more patients across the country," said Adam Nielsen, Chief Executive Officer of PHS. "Being named to the Inc. 5000 list of fastest-growing companies reinforces the value of our efforts and is an opportunity to celebrate the progress we have made with our patients and our referring partners."

PHS provides support to over 25,000 children with medical complexities across ten states through three primary service lines, working together to keep children and their families at home. Headquartered in Minnesota, PHS has expanded its operations across the country through the combination of similarly focused pediatric home care providers and the expansion of services to those communities.

"As we work with the local pediatric healthcare communities, we have been able to expand our service offerings to further enhance access to a continuum of care and services to children where they need it most," Nielsen continues. "In each region we serve, we strive to build our Pediatric Center of Excellence in a way that ensures quality, enhances patient outcomes, and keeps healthy children and their families at the center of the care plan. Every child deserves to live at home, and we will continue to seek opportunities to bring comprehensive home care services for medically complex children to new locations across the country."

Inclusion on the 2023 Inc. 5000 list comes at an exciting time of continued development for PHS. In the last year, PHS has made meaningful investments in new and existing markets expanding its Infusion Pharmacy business, Nursing operations, and Respiratory Therapy and Clinical Nutrition business lines. Each service line is supported by best-in-class technologies and business operations. PHS was ranked the 63rd fastest growing company in Minnesota, and the 229th fastest growing health care company on this list. PHS has acquired a total of ten organizations and opened five new branch offices over the past five years. Today, PHS supports thousands of patients across the country, allowing children with medical complexities, and their families to achieve their best lives- together- at home.

About Pediatric Home Service

Pediatric Home Service is an independent pediatric home care company helping children with medical complexities and technology dependencies live safely and successfully where they're most comfortable, at home with their families, rather than in a hospital. Pediatric Home Service partners with health care professionals and family caregivers to deliver compassionate, specialized, high-quality care to children with complex medical needs.
