Dear Valued Medline Customer:

Nurse Assist is issuing a recall for specific item(s) and lot(s) of 0.9% Sodium Chloride Irrigation USP, Sterile Water for Irrigation USP and Saline Flush Syringe. Nurse Assist issued a recall due to the potential lack of sterility, which could result in the solution being non sterile. No product is to be returned. Upon received response your account will be provided labels to over-label your kits affected by this recall. Our records indicate that these were used as a component in convenience kits purchased from Medline Industries, LP. The list of specific convenience kits purchased by your facility may be found within the recall portal.

REQUIRED ACTION:

1. Immediately check your stock for the affected item number and the affected lot numbers which can be located within the recall portal. Quarantine all affected product immediately.
2. Please use the link and the information below to complete your response form. Please list the quantity of affected product you have in inventory on the form. Even if you do not have any affected product in inventory, please complete and submit the response form.
3. Upon receipt of your submitted response form, your account will receive over-labels to place on affected inventory, with instructions for your staff to remove the affected component prior to using the kit. These labels will be provided via FedEx overnight, if applicable.
The login for completing the response form is:
